

Eskobar, My Hometown (Wannadies Cover)

This is my home town song, a how it's like at home song
spending hours all alone, waiting by the phone
it's hard to say come closer, when you're so far away
and sometimes it's hard to remember that
tomorrow's as close as yesterday

this is my home town
this is my home town
this is my home town
this is my home town

I'm drossing up and down these streets, where nothing ever seems to change
where wet grass meets dust and dirt, that's where love no longer hurts
I've never been a loner, at least I never wanted to be one
so what ever you do, remember one thing
my home is where my heart is and

this is my home town
this is my home town
this is my home town
this is my home town
