

Eskobar, Some Of Us Got Paid

Some of us got paid, some of us got laid.
Some of us got outta here, but it was so yesterday.
Some of us came straight, some of us came gay.
Some of us came some other way, but it was so yesterday.

Just let it go now, just let it fade.
Cause I never found happiness hunting the past, it's a downspiral raid.
Cause there's only now, there's only now.

Some of us let loose, some of us let others choose.
Some of us accused, but it was so yesterday.
Some of us derailed, some of us helped others fail.
Some of us just tailed, but it was so yesterday.

Just let it go now, just let it fade.
Cause I never found happiness hunting the past, it's a downspiral raid.
Cause there's only now, there's only now.

[Instrumental Part]

Just let it go now, just let it fade.
Cause I never found happiness hunting the past, it's a downspiral raid.
Cause there's only now, there's only now.

Just let it go now, let it fade.
Cause I never found happiness hunting the past, it's a downspiral raid.
Cause there's only now, there's only now.
