

# Eskobar, Somewhere It's Been Said

Somewhere it's been said  
I'll never find you on the ground  
Somewhere in my head  
A voice is saying I let you down

But I hope you know I'd never do you wrong  
Turning in my head  
I can't stop thinking about that song

So let my try  
To shave off all my guilt right now  
Why  
So don't you try to hide  
Don't let me die  
Arms around my head oh god

Somewhere it's been said  
I'll never find you on the ground  
Somewhere in my head  
A voice is saying I let you down

But I hope you know I'd never do you wrong  
Turning in my head  
I can't stop thinking about that song

So let my try  
To shave off all my guilt right now  
Why  
So don't you try to hide  
Don't let me die  
Arms around my head oh god  
Why  
Somewhere it's been said
