You'll find your self there's more than just blood on their hands  
i just want you to know where we stand friendship is all that we live for now  
Can you perscribe me with this remedy it feels as though life isn't what it seems  
Can you perscribe me with this remedy it feels as though life isn't what it used to be  
I'm taking everything that meant something to me and rearranging all of my priorities  
i'm given something now i'm blessed with a decree a mandate from the heart to follow all my dream

i'll talk only the best breathe every day it's getting harder to breathe every day
