

# Esmee Denters, Outta Here

Get me outta here  
Cause my eyes are burning  
From these silly tears  
That you brought when you show me you dont really care  
And you never loved me, someone get me outta this place  
(1,2,3,4)

Right now  
Its so amazing how you have so many faces  
And you are not that person I thought that  
I had fell so deep in love with  
You changed up your makeup your DNA  
I cant recognize youre a stranger to me  
I feel so betrayed what a waste of my heart I made

Get me outta here  
Cause my eyes are burning  
From these silly tears  
That you brought when you show me you dont really care  
And you never loved me, someone get me outta this place

Right now  
My bodys trembling its so damn hard  
To pick this feeling, your heart is so cold and now Im freezing  
Wish you could feel the pain baby I will arrange it

Yeah, yeah

Yeah, yeah

You changed up your makeup your DNA  
I cant recognize, youre a stranger to me  
I feel so betrayed, what a waste of my heart I made

Get me outta here  
Cause my eyes are burning  
From these silly tears  
That you brought when you show me you dont really care  
And you never loved me, someone get me outta this place

I thought that we were forever  
I guess I misunderstood  
My fault for thinking you loved me  
Or even thinking you ever could

Get me out of here right now  
Get me out of here right now

Get me outta here  
Cause my eyes are burning  
From these silly tears  
That you brought when you show me you dont really care  
And you never loved me, someone get me outta this place

Get me outta here  
Cause my eyes are burning  
From these silly tears  
That you brought when you show me you dont really care  
(you dont really care)

And you never loved me, someone get me outta this place  
1,2,3,4

Right now, right now, right now  
Some get me outta this place  
Right now, right now, right now  
Someone get me outta this place  
Get me outta here
