

Esmee Denters, What Goes Around

oh hey ya hey
hey boy is she every thing you want in a woman
you no i gave you the world
you had me in the palm of your hand
so why your love went away
i just cant seem to understand
i thought it was you and me babe me and you till the end but i guess i was wrong
don't want to think about it
don't want to talk about it
just so sick about it
can't believe it's ending this way
so confused about it i'm getting the blues about it
i just can't do with out you
tell me if it's fair
is this the way it's really going down
is this how we say goodbye babe
i should have known better when you came around
that you where gonna make me cry

it's breaking my heart watching you run around
that your living a lie
that's ok babe cuz in time you will find
what goes around goes around goes around come all the way back around

what goes around goes around goes around comes all the way back around

what goes around goes around baby it goes around way back around

what goes around goes around comes all the way back around

hey hey hey heyay

what goes around baby come around baby back around

what goes around come around

back around
