

Eso-Charis, Processed Bodies

What I crave, set forth I'll pray
I've been saved and raising God's standards, receive
Testing faith cast up my legs
Stand up and praise
You must be strong
There is no compromise
Decisions made don't come from circumstance
We better fight back for Jesus
Relentless
Dead flame you don't have to change yourself
He changes you
Unite in Christ
To give up your selfish ways
To give up your prideful ways
To give up these worldly ways
Be only what you've become, do only what you've sown
Bodies processed
Time has come to stop telling man who he thinks he is
And tell them who he really is, Jesus
Stand in, ignite, you're salt, he's light
I hate Satan and all his lies
It's more than just life
