

Esqarial, Kill All of Them

Look into the face of danger, I know how to make a dead
I don't want to make a deal, might be murdered in your bed

(Chorus:)

Make them deaf, make them blind - Tooth for tooth, eye for eye (x2)
Make them die (x2)

Don't touch me when I'm dead, can't believe that I'm here
Cold in the arms of the dead, leave me now, admit your fear

I know all the words of power, all about the witching hour
I know the reason why you're scared and here comes your nightmare

(Chorus)

(Solos: Pajak)

Wake up, don't run, I'm here, I came to kill you my dear
You could start to dig your grave, slaughter in the room, make my bleeding day
I'd like to feel a pleasure to kill, easy to be cruel, hard to be kind
Tell me what do you feel, your slowly death is make me glad

(Chorus)
