

# Estelle, In The Rain

Ha this remind me of summer  
I'm talking bout an English summer  
You know where it rains

all night long

Yeah, but this remind me of you  
We don't need to be, just a memory

if you wanna flow I'll walk away

It was last love, not the first time  
For you to notice me  
Cos you had yours and I had mine  
It still wouldn't find to see  
If it makes sense, I would make sense  
When you put your lips on me  
And the feeling, get to feel this  
Like this was meant to be

Nah I, but apparently you only get one chance  
And I, this is something I may want to last  
But we both got other things we got to do  
And then, that don't stop this girl from feeling you

Loving in the rain til the sun comes out, all night long  
Loving in the rain til the sun comes out, all night long  
Loving in the rain til the sun comes out, all night long  
We don't need to be just a memory  
If you wanna flow I'll walk away

But this is nothing but the real that I speak to you  
Feel how I feel for you, nothing's quite real but you  
I'm changing up my expectations  
This aint changing my person oh it's just relations  
And uh, I tried to tell me that a couple times  
But you seemed to get into my heart and write a rhyme  
And you, a future with a capital F  
And I wonder how I got into this beautiful mess  
Now I, now this is something I would never do  
But you, colour my heart in different shades of you  
I guess we, we just gotta see where this will go  
I know, if you're willing I'm gonna wait for you  
To go with me  
For to you to go with me

Loving in the rain til the sun comes out, all night long  
Loving in the rain til the sun comes out, all night long  
Loving in the rain til the sun comes out, all night long  
We don't need to be just a memory  
If you wanna flow I'll walk away

This could take a whole lotta time  
Cos I feel your love in oh so many ways  
With you  
We could be together  
In the rain  
You and me together  
Ok  
You and me together  
Oh baby I'm gonna wait  
To go out in the rain

Loving in the rain til the sun comes out, all night long  
Loving in the rain til the sun comes out, all night long  
Loving in the rain til the sun comes out, all night long  
We don't need to be just a memory  
If you wanna flow I'll walk away

Loving in the rain til the sun comes out, all night long  
Loving in the rain til the sun comes out, all night long  
Loving in the rain til the sun comes out, all night long  
We don't need to be just a memory  
If you wanna flow I'll walk away

Loving in the rain  
Leave your girl  
All night long  
I'll leave my man  
Loving in the rain  
We don't need no friends  
All night long  
Just hold my hand

Loving in the rain til the sun comes  
Leave your girl  
out all night long  
I'll leave my man  
We don't need to be, just a memory  
If you wanna go I'll walk away  
Said I'm on the way
