# Estelle, You Are

[Estelle:]
Every Little
Every Little

[John Legend:]
The first time I met you
You were so quiet and cool you
Never thought that you would kiss my heart the way you did
All of the sadness in passing
Making me feel like I'm past it
But you really end in the sweetest way

Oh I'm so commended by you
All in my music all you
Do you keeps me surfing on the hook that we can be together are you
I hope you listen to this
I hope you get to feel this
Because everything is you
Come on

[Estelle &amp; John Legend:]
Come close to me
Only your love can do me
Every little thing I do you are
Baby you know your special
I don't care what the rest do
Every lttle thing I do you are

[Estelle:]
If love had a face then it's you
Made for me how did you know
The best type of love who must have led you to hurt me
If there's anything I can do
Let me know I'll be a fool
But don't take advantage cause I will hate to have to leave you
Your touch makes me feel like a woman
Takes me beyond feeling human
When you touch me oh the smell of you
When we're alone it's beautiful
Makes me nto want to leave you no
Everything is you

[Estelle &amp; John Legend:]
Come close to me
Only your love can do me
Every little thing I do you are
Baby you know your special
I don't care what the rest do
Every lttle thing I do you are

Come close to me
Only your love can do me
Every little thing I do you are
Baby you know your special
I don't care what the rest do
Every lttle thing I do you are

[Estelle:]
Ooh when your lying next to me

[John Legend:]
I can't believe your next to me

[Estelle:]

It's only us in this moment

[John Legend:]
No interuptions we focus

[Estelle:]
Tell you I'm glad I risked it

[John Legend:]
God knows that I would have missed it

[Estelle:]
