

# Ester Drang, Is Nothing New

It's just like  
You know that I carry you  
Pushed you away  
'Cause you're nothing new to me

It's going back to you  
It's going back to you

You can't wait  
You can't free me, I'm through  
Believe me  
Believe me  
I will walk with you  
And leave everyone  
I'm your savior

It's just like  
You know that I carry you  
It takes you your walkthrough  
Just to be true

You can't wait  
You can't free me, I'm through  
Believe me  
Believe me  
I will walk with you  
And leave everyone  
Alone to save you
