

# Eternal Reign, Hands Of Fate

I stand upon the crest and take a look out to the sea  
The thoughts come to my mind make me want to flee  
Sanity fades away like water in the sand  
Where does this hatred come from, that I don't understand  
Will this nightmare ever end, or are we victims of our heavy hand?  
Remaining time is short to make up our minds  
Do you really think, that peace is so hard to find  
We have to be careful with the spark that starts a fire  
Cause these times are like we're walking on thin wire  
...Like a walk on wire!

Rival leaders go to war  
Fighting the battle in the name of some god  
Taming the land  
Bringing death and hunger for all people  
This hate's a killer  
In a breedin' frenzy that's growin' faster  
So wake up and stand up  
Fight the beast that's driven by fury  
Save the people deliver us from evil  
The bringer of hatred has to be eliminated!

IS IT ALL IN THE HANDS OF FATE?

Children on the beach  
They want to play in the water - but it's black  
They're takin' what we give them  
So why we don't care?  
We gotta give Mother Earth a little dignity  
We gotta leave our children  
Somewhere to go, something to live for  
We're only footsteps away from the end  
Dancin' on the edge - do we know what we're doing?

IS IT ALL IN THE HANDS OF FATE?

Let's come to our senses, cause it won't be too late  
I don't think, that this really has to be our fate  
No life's so short, that it can't be turned around  
So raise your voice - don't live your life in the underground

It's time to end up this fight - don't hesitate  
It's time to walk into the light  
End up the fight - walk into the light

If we don't give up, we will live on  
And make this place worth living in  
So people join hands and let us be friends  
The future is ours - don't waste it  
The rainbow of blackness will disappear  
The clouds of despair will vanish  
Together we stand against all the hate

We got the power to win this game!
