

Etienne Daho, Make Believe

What you don't have - Make believe
What you're wanting for - Make believe
Anyone, anywhere, anything that you need
Make believe - who you want to be
Make believe - what you're gonna do
Make believe - who you want to love
Make believe
What you don't feel - Make believe
What you want to be - Make believe
Anytime, anyplace, anyway that you please
Make believe - who you want to be
Make believe - what you're gonna do
Make believe - who you want to love
Make believe
Believe - who you want to be
Make believe - what you're gonna do
Make believe - who you want to love
Make believe
I used to go a thousand miles
To get to where I haven't been before
But everything I feel and everything I want
Is waiting there right outside my door
Who you want to be
what you're gonna do,
Who you want to love
Who you want to be,
what you're gonna do,
Who you want to love
Who you want to be,
what you're gonna do,
Who you want to love
Who you want to be,
what you're gonna do,
Who you want to love.
