

Europe, Coast To Coast

(Joey Tempest, Mic Michaeli, Kee Marcello)

You look out that window
For someone you know
But it all looks the same and time and again
It hurts you so
You wonder if always
You'll stand on your own
But hear in your mind, you'll get through this time
You're not alone

When time seems so lonely
And your day seems too long
You wonder if you will ever get through
And still be strong
With eyes full of sadness
You stand on your own
It tears you apart, but you know in your heart
You're not alone

Coast to coast and land to land
We're together hand in hand
Coast to coast and land to land...
