

Europe, ParadiZe Bay

(Joey Tempest)

Lay your hand upon my shoulder say something
That I want to hear
Time will wash out every trace of sadness
If only you are near

I've tried so hard just to be somebody
But now I'm found

And we can be together
And travel far away
And we can love forever
In some old ParadiZe Bay

Carry me oh bring me out of fantasy
And tell me this is real
Tell me that you won't give up
And tell me it's a good thing to feel

The wind is carrying your voice
The message is "Don't ever walk away";
And the only answer I can give to you
Is that I'm always gonna stay
