

evan and jaron, Luckiest Of The Lucky Ones

River to river
Highway to highway
Gonna stand and deliver
That the message here is our way
'Cause they don't know what we're thinkin'
No they don't know what we want
Little by little
In our heart of hearts
Although we're stuck in the middle
We ain't falling apart
'Cause they don't know what we're thinking
No they don't know what we want
We're comin' around for it
We're comin' around for it
We're comin' around
It's been a long time waitin'
All the while we've been sayin'
Chorus
If it ain't one thing it's another
It took so long to discover that
We are the lucky ones
We are the lucky ones
I'm here to remind you
I'll always be right behind you
We are the luckiest of the lucky ones
Summer to summer
Night to night
No more sittin' in wonder
Wondering if we're right
Cause they don't know what we're thinking
They don't know what we want
We're comin' around for it
We're comin' around for it
We're comin' around
It's been a long time waitin'
All the while we've been sayin'
Chorus
Why don't we waltz around the room tonight
Dancing in the light
Why don't we waltz around the room tonight
Dancing in the light
Summer to summer
Night to night
No more sittin' in wonder
Wondering if we're right
Cause they don't know what we're thinking
They don't know what we want
We're comin' around for it
We're comin' around for it
We're comin' around
It's been a long time waitin'
All the while we've been sayin'
Chorus
