

Evemaster, Spirits Intertwined

Hail to thee, thou new moon . jewel of the night
Ye kings of sun and moon . ye kings of the stars above
Hail to thee, thou new moon . mother of the stars
Ye servants of the skies above . the midnight garden of the stars

There I shall be brought again by the beating drums...

Hail to thee, thou new moon . daughter of the sun
The equinox of the night is here upon everyone
The garden of the midnight sun . the hall of the evening star
Going deeper, burning up, feel the spirit escape the flesh ... to the other world

There I shall be brought again by the beating drums...
Where the spirits ride the winds
Thus spoke the spirits intertwined, embraced in mist
We welcome thee to our world . now enter the sacred path... and walk on...

A MIDNIGHT IN THE GARDEN OF EVIL

"When is this spirit to be reborn?
To reach the beauty of forevermore
Baptised in fire, self-slain by thought
Immortality is what I have so long sought for"
