

# Even All Out, Dead In The Water

The clock it ticks and it won't stop  
It keeps running life as we know it  
The deadlines, appointments, disappointments  
That we try and avoid by always being on time  
So get all your priorities straight  
Cause time may heal wounds, but time won't wait  
while you relax and just enjoy your leisure

(Chorus)

We're dead in the water,  
Trapped in a cage but it's alright  
Cause traffic keeps moving,  
So pave your own way and live your life

The mind it races and it changes  
But it also makes us who we are  
The heartbreak, the best times, and the bullshit  
Are all what we need to make the best of our time  
So just live life at your own pace  
Give yourself time, give yourself space  
To relax and just enjoy your leisure

(Chorus)

So just keep on moving on  
but that doesn't mean run away  
We've all got our battle scars  
Here are mine  
Show me yours i'll help you realize  
(Chorus)
