

# Even All Out, Thank You For The Good Night

Well if you take the time to fall inline  
Its best that you get out of mind  
Whats started and stopped has finished  
Becuase this night has just begun  
And I'll be there when you're

(pre-chorus)

Waving your hands  
But you're not drowning  
You're alive and we feel it  
So come on and let's harmonize  
You're shaking your head  
But you're not saying "no";  
We're in this together  
And on the same page

(chorus)

So lets say  
I know it's fucked up  
But why not have a good time?  
And we thank you for realizing  
It's time to just have a goodnight  
...and we thank you for a good night.

As you get lost inside the crowd don't hide  
your face from all the frenzied crys  
From them to you in humid backgrounds  
because this night has just begun  
and now I'm there as you're

(Pre-chorus)

(Chorus)

Goodbye and goodnight  
We haven't touched the ground  
It's not in sight or anywhere to be found  
So come on take a chance  
And we'll make this a long goodbye.  
Waving your hands  
But you're not drowning  
You're alive and we feel it  
So come on lets harmonize

(chorus)
