

Even Stevens, Sound Of Forever

I think it's fine watchin it all go by
Stop and worry if you'll know when
The things they start and ask you why
and when it stops, you'll find a need for an end

The good times roll so let them go now
stand back and watch them roll now
the sound of forever is on the road

Flyin high, out of mind for now
takin a walk around this town
thought I knew, forgot somehow
and when it stops, I'll find a need for an end

The good times roll so let them go now
stand back and watch them roll now
the sound of forever is on the road
