

# Ever We Fall, Evacuate!

Their secrets are untouched  
Oblivious to what you're thinking  
it's not what matters most  
Just the views of the ones speaking  
We can learn a new way to give  
Where it wouldnt be so hard to give  
Their stories start with love  
Build and mold their way around you  
Turns into your life  
Ends in better rage
