

Everclear, Electra Made Me Blind

Shake the dust from this small town.
I turn and follow the west wind down.
I go and pack up my shiny things.
And go, yeah, just go.

I find a new life in old L.A.
Yeah, stupid happy with everything.
I pulled myself down so easily.
I know, I know, I know.
I know, I know, I know.

Met Electra when living down.
I saw her spinning around and around.
Never knew much about her past.
I knew enough that I didn't ask.
I know, I know, I know, I know,
I know, I know, I know.

Living isn't a simple thing, I know.
No one said it's supposed to be, I know.
Living isn't a simple thing, I know.
No one said it's supposed to be...I know.
I know.

No, living isn't a simple thing, I know.
No one said it's supposed to be, I know.
Living isn't a simple thing, for me.
I know ways to make it easier.

July, she lied (x10)
JULY, JULY, JULY!

Living isn't a simple thing, I know.
No one said it's supposed to be.
Living isn't a simple thing, for me.
I know ways to make it easier...
