

Everclear, Heroin Girl

I used to know a girl...
She had two pierced nipples and a black tattoo
We'd drink that Mexican beer
We'd live on mexican food
Yeah, I wish I could go back
Yeah, back in time

Esther used to be
The kind of girl that you would never leave
She'd do anything
To give me what I need for my disease
She'd do anything
I can hear them talking in the real world
But they don't understand
That i'm happy in hell
With my Heroin Girl
Yeah, with my Heroin girl

Esther used to be
The kind of lover that you would never leave
She'd do anything
To give me what I need for my disease
She'd do anything
I can hear them talking in the real world
Yeah, but they don't understand
I am losing myself in a white trash hell
Lost inside a Heroin girl

They found her out in the fields
About a mile from home
Her face was warm from the sun
But the body was cold
I heard a policeman say
Just another overdose...
Just another overdose!!

Esther used to be
The kind of lover that you would never leave
She'd do anything
To give me what I need for my disease
Yeah, she would do anything
