

Everclear, My Sexual Life

People you know
Try to tell you things
Bad things that
You don't want to hear about
Tell you tomorrow
What you did today
Just remember,
It's a small town
It's a real small town.

She gets tired of all the stupid boys,
She can't wait until they're done
She wants a man who can take his time,
She wants someone who can make her cum
Yeh, can you make me cum?

You always say you want a simple life
You and me both know you are a liar
You always say you want a simple life
Hearin' the talk
Just makes me tired

Swimmin' in the heavy water
Buried in the sand
Happy hears fall this should be HEARTS
From my shaking hands
I can't hide
My sexual life
end chorus
He always says he wants to
Find a special one
But you watch his head
Go spinnin' round
He really wants anyone
Who'd give it up
He seems to forget he's in a small town

You always say
You never fuck around
You say this town
Is just plain full of lies
Yeh you always say
You never fuck around
Hearin' the talk
Just makes me tired
