

# Everclear, The Honeymoon Song

You know I love you baby  
And I know you love me too  
But the fun that day  
Didn't start until  
We left on our honeymoon

We stepped off the plane  
Into a warm sunny day  
And then we  
Got leid  
Together

The sun shines down  
On a Hana lei town  
Where the fish all smile  
'Cause they know us

Our wedding day  
Was warm and sunny  
Our friends and family  
Came from out of town

We said I do  
Then ate some food  
And smiled  
Until the sun  
Went down

We'll take the Zodiac Cadillac  
Around the north shore  
Then we'll head back  
The sea turtles comes to greet us

So let's get loaded tonight  
We'll drink on the flight  
Back home  
The honeymoon is over

You know I love you baby  
And I know you love me too  
But the fun that day  
Didn't start until  
We left on our honeymoon

We're on our honeymoon  
We're on our honeymoon

The fun that day  
Didn't start until

We left on our honeymoon
