

# Evergrey, Distance

It's lost but we'll find it again  
We must try even if it's a distance future  
It was all in in our hands to the ends  
I just wish we had known so much sooner

It's not over  
We'll soon be closer than before  
Can't let this distance  
Keep our destined souls apart

There's so much I would have shared if I could  
But my reaching was not getting through to you  
So many times when I was misunderstood  
I just wish we had spoken so much sooner

It's not over  
We'll soon be closer than before  
Can't let this distance  
Keep our destined souls apart

Solo: Danhage  
Solo: Englund

We were caught in a swirl of a devious tide  
Where I wish I could have guided us through the nocturnal  
And I would have ran with you towards the light Instead  
I was drawn further and further away

It's not over...
