

# Everlea, A Promise We Don't Make Is A Promise

(Chorus)

If we felt this from the start  
Things would probably be the same  
If we felt this all a long  
What would it change?  
I need you back like the summer  
when you where falling in love with me  
When our bodies broke into pieces  
When the pain left  
For free  
Oh Oh  
I bought a picture  
Oh Oh  
for your apartment  
Oh Oh  
I bought a picture  
It made my day!  
Please stay!

(Chorus)

Nothing  
I need you back like the summer  
When you where falling in love with me  
When you want it  
When you need it  
You broke it  
You bought  
Now its your time to wait  
Ohhh

(Chorus)

Nothing Nothing  
When we where falling for the sea line  
I'd scream anything  
To anyone  
Just to say:  
If we felt this all along  
what would it change?  
Come back, come back, come back to me  
I swear to god i will never leave  
Come back, come back, come back to me  
So we can be the same  
When we where falling for the sea line  
I'd scream anything  
To anyone

Just to say:

If we felt this all along  
what would it change?  
If we felt this from the start  
Things would probably be the same  
If we felt this all a long  
What would it change?
