

# Evermore, For One Day

Draw the world in shades of grey  
Cut me out and walk away  
Pick me up then put me down  
'Cause it feels so cold in the rain

Could I hold you for one day  
Could I hold you for one day  
Could I hold you for one day  
I need a chance to say....

Get a hope for another day  
Give me music anyway  
Lift the mood and float away  
It feels so cold in the rain

Could I hold you for one day  
Could I hold you for one day  
Could I hold you for one day  
I need a chance to say

What about us? Sing  
What about us? Sing  
What about love? Sing  
What about trust? Sing  
What about love?  
What about love?  
What about love? Oh!!

Could I hold you for one day  
Could I hold you for one day  
Could I hold you for one day  
Could I hold you for one day  
Whoa [until fade]
