

# Evermore, Light Surrounding

I see you by the water  
Your toes dipped in the sand  
I thought that it was over  
I thought you'd understand  
But the feeling is returning  
Though time has made us change  
And I understand if you don't  
Wanna talk to me about it tonight  
Tonight

'Cause I see the light surrounding you  
So don't be afraid of something new

Time was overtaking me  
And I guess I was confused  
They were all inviting me  
But I wish I had refused  
'Cause I've been there before  
And I've seen it all  
And I believe in you

And if you never had my heart  
I would've never called you back  
At the start that night  
So I want you to know

That I see the light surrounding you  
So don't be afraid of something new  
'Cause I see the light surrounding you  
So don't be afraid of what you're turning into

Blue-eyed sun shines on me  
In the morning  
Can't help but feel a little cold  
Thinking of you

'Cause I see the light surrounding you  
So don't be afraid of something new  
'Cause I see the light surrounding you  
So don't be afraid of what you're turning into  
No, don't be afraid  
Don't be afraid  
Cos I see the light  
Cos I see the light  
Cos I see the light surrounding you
