

# Every Time I Die, Apocalypse Now And Then

You got me right where you wanted me  
So what do we do if I can't hold this pose for too long?  
Do we shoot again, or does the whole operation shut down and we go back to the board?  
I practiced all my lines, oh yea I'd feed every child in the world  
But it's a one night stand baby  
We gotta keep on  
If you got it all then you got it right  
I'm gonna do what you say and get way out of line  
Nobody's gonna stop me now  
It's not how it looks unless you saw nothing  
We all agree this proposal's been sentenced to death  
Are we baiting the right hook to catch your attention?  
The media needs another blackout  
We've been calling  
Flooding hotlines  
We've applied mascara to the radio but that's just a quick fix and we need a little more  
Does it matter to you at all?  
Are you listening or have you tuned out?  
We've gotta get it together  
But first we drink and we take it all apart  
Everywhere we go we're the local boys and we're back in town  
Well that's the way it is  
It breaks my heart  
We've applied mascara to the radio, but that's just a quick fix and we need a little more  
Does it matter to you at all?  
Are you listening or have you tuned out?  
Get by  
Get gone  
Get high  
Get wronged
