

Everyday Sunday, Hersel (I Want A Girl)

VERSE(1):

She walks alone trying to find a way out
She doesn't know what to do
(What) She wants to do with herself

She doesn't see what she could be
She doesn't know, she isn't home
She looks around, cannot be found
She doesn't know, Oh!

CHORUS:

I want a girl that'll stand up for what she believes
Want a girl that'll tell me just what she thinks
She doesn't care about herself
Just everybody else

VERSE(2):

She's the same in a crowd and when she's by herself
She doesn't put on a show for everybody else
She loves God, with all that she breathes
She will bring Him everything, Yeah!

CHORUS (3x)
