

Everything But The Girl, Beautiful

You walked into my life
The light was shining bright
You were the one I was looking for

I looked deep into your eyes
Just to see the moon light
I thought I'd never love anymore

Take my hand and come with me
Let our love set us free
forever and ever and ever...eternity

cause you're beautiful
cause you're beautiful
cause you're beautiful, beautiful, beautiful

cause you're beautiful
cause you're beautiful
cause you're beautiful, beautiful, beautiful

Take my hand and come with me
Let our love set us free
forever and ever and ever...eternity

cause you're beautiful
cause you're beautiful
cause you're beautiful, beautiful, beautiful
