

Everything But The Girl, Never Could Have Been

Never Could Have Been Worse
words and music by Ben Watt

Each day she love you more but you couldn't care less,
you left me open mouthed and I couldn't eat a thing.

Oh

Dark glasses hide an eye thickened with pain,
she said she fell downstairs but I've seen the size of your fists.

Oh, could have been better,
Never could have been worse.

Dead years like pages missing from a book she knew
makes no sense without them, left her still like a child.

Oh, could have been better,
Never could have been worse.

Oh, could have been better,
Never could have been worse.

Could have been better.
