

Eves Plum, Ride With You

I'd love to take a ride with you But I'm scared that I might say the wrong thing
You, you'd be cool Too cool to care Too cool to care about me
And I don't know what you see in me Well I don't know what you see here
And I don't know what you see in me I don't know what you see here
Oh oh but it's clear I'm here
I want you to say... I'd love to be alone with you I only know a thing or two You,
you'd be cool Too cool to care about me.
