

Evil Superstars, If You Cry (I'll Go To Hell)

Do all witches listen to
heavy metal music
and are the secrets of life
only known by the stupid few
I love you from the very first
time I set myself on fire
you put me out with your handkerchief
boy it was a big relief (yes it was)

ah well you can do
whatever you want to do
anything you can think you can tell
but if you'll cry I'll go to hell alright alright

every woman child beast or man
avoid music as much as you can
it's like picking your nose
with a finger from the devil's hand ah well.....alright
