## Excel, Never Look Away

Stand up in what you believe in There is no remorse Beware of the consequences To take force

Striving for the fear It's the only sense The end people suffer In the abuse in silence

Your mind obviously has to be the stronger one Only use the force to your last resort Take all you've learned and put it all upon Release the bitterness, but Never Look Away

Never Look Away Stand up and look proud Keep your head up high Never Look Away
