

Excellence, I Believe It When I See It

I know you better clean up your act
And baby that's a fact
All my friends say it's wack
But opposites attract
You say you wanna get it on with me
I believe it when I see it baby

Somebody should have told you
That talk is cheap if you don't act
So get yourself together
And prove to me that you are all that

Take a step back and relax
Then show me if you got what it takes

I know you better clean up your act
And baby that's a fact
All my friends say it's wack
But opposites attract
You say you wanna get it on with me
I believe it when I see it baby

Oh yeah

You try so hard to get me
You don't impress me very much
You have to do much better
So show me that you got that touch

Take a step back and relax
Then show me if you got what it takes

I know you better clean up your act
And baby that's a fact
All my friends say it's wack
But opposites attract
You say you wanna get it on with me
I believe it when I see it baby

You can't hide behind your words
It's my turn that's what I heard
Well I'm here so start to hit
Hit with all you have to give
And we will see
If you impress me

Oooh ohh yeah

I know you better clean up your act
And baby that's a fact
All my friends say it's wack
But opposites attract
You say you wanna get it on with me
I believe it when I see it baby

Better clean up your act
And baby that's a fact
All my friends say it's wack
But opposites attract
You say you wanna get it on with me
I believe it when I see it baby
