## Exciter, Breakdown the Walls

I live for the night - I'm a bringer of fright Here to take your life - I'm a sinner that's right Filling your heads with pain,making you writhe and bleed I'll destroy this place,making you scream

Ah - Ah Ah - Ah

Break down the walls - Break down the walls Break down the walls - Break down the walls

I torture your brain - I'm the bringer of pain Tear and grind at your mind,watching you falling insane In the depths of teh dark I can hear you screaming for your life Cannons are ready for fire you're in the sights

Ah - Ah Ah - Ah

Break down the walls - Break down the walls Break down the walls - Break down the walls

I live for the night - I'm a bringer of fright Here to take your life - I'm a sinner that's right Filling your heads with pain,making you writhe and bleed I'll destroy this place,making you scream

Ah - Ah Ah - Ah

Break down the walls - Break down the walls Break down the walls - Break down the walls
