

# Exciter, Mission Destroy

Put thru' the grinder but we survived  
Why can't you see that this is our lives  
Heading out for the fast lane, pulling out to pass  
We are the mighty, the weak never last

The only way we know is to fight  
We love to feel the noise  
To give our all every night  
Mission destroy

Yes, we've been kicked down but stronger we rise  
We thrive to deliver despite your ways and lies  
Our backs to the wall 'cause we're sick of your kind  
Ya we've met you before and we'll crush you this time

The only way we know is to fight  
We love to feel the noise  
To give our all every night  
Mission destroy

Mission destroy - We'll fight till the very end  
Mission destroy - Killing for self-defense

In the ears of the wicked the truth is always heard  
It's the way of the tyrant to never keep his word  
Heading for a breakdown then fighting back the heat  
This is our mission, to over-come defeat

We're back and hungry, ready to fight  
It's time to feel the noise  
Standing tall, defending our rights  
Mission destroy

Mission destroy - We'll fight till the very end  
Mission destroy - Killing for self-defense

I wanna hear you  
I wanna see you  
Just stand up strong for your rights tonight  
Don't let 'em push you  
Don't let 'em break you  
Just keep your guard up, keep up the fight

Mission destroy - We'll fight till the very end  
Mission destroy - Killing for self-defense  
Mission destroy - We'll fight till the very end  
Mission destroy - Killing for self-defense
