

Excuse Me Moses, In Memoriam

Everything you mean to me
is from here to eternily
close your eyes for me
I'll make you happy

Keep your fingers crossed for me
I've got my own philosophy
I already missed up before tryin'

you dont know how I feel
when I wish it could be real

and I'll kepp those memories for as long
as I can dream and I believe
in memories I see you smiling
'cause you are here with me eventually

Lady you're the one for me as lovely
as no one can be get to know my name
I'm your fanatic

Keep your fingers crossed for me
the time will come and you will see
that I already messed up before tryin'

you dont know how I feel
when I wish it could be real

and I'll kepp those memories for as long
as I can dream and I believe
in memories I see you smiling
'cause you are here with me eventually
