

# Exit-13, Ecotopian Visions

Ecotopian visions fused with environmental education.  
Natural harmony achieved through caring habitation!

Ecotopian visions fused with environmental education.  
Natural harmony achieved through caring habitation!

Cognitive cerebral conceptions of nirvana,  
Harmonious existence with all flora and fauna,  
Human imperfections have all been surpassed,  
Over the earth peace exists at last!  
But how can we achieve this vision.  
When most societies and nature meet in collision?  
The know how and concern are before our eyes..  
Commitment to the goal will help it become realized!!!

Ecotopian visions fused with environmental education.  
Natural harmony achieved through caring habitation!

Ecotopian visions fused with environmental education.  
Natural harmony achieved through caring habitation!
