

Exit 13, Inbreeding Populations

Society of fools abducted by the latest trends and pathetic lies.
Engulfed in the plastic of their peers.
Being an individual is their greatest fear.

Inbreeding populations, lobotomized mutations.
Similarity fixation, typical of this entire nation.

Society of fools with no intellect.
Their inbreeding offspring will surly infect.
The contents of their minds isn't worth a dime.
An existence this stupid should be a crime.
