

# Exit 13, Legalize Hemp Now!

(including A Warm Wave Of Euphoria)  
(Music: O'Donnell, Lyrics: Yurkiewicz)

We'r in the midst of a conspiracy that has been  
waged for half a cantury  
This sick persecution began originally by  
businessmen fearing the loss of money  
Through manipulation of corrupt industry  
hemp prohibition became a reality  
Misinformation became the legacy as the worth of  
this plant was maligned systematically  
This insane prohibition continues today  
implemented by the fascist at the D.E.A.  
Innocent people are locked away for as little as  
possession of a single j &lt;?&gt;  
By waging this ludicrous &quot;War&quot; on hemp millions of  
dollars are wastefully spent  
Imagine the progress that could be achieved if hemp  
were granted legally

THINK ABOUT IT!!!!!!!!!!!!!!

We're all in the grasp of concocted lunacy  
infringing on our rights for personal liberty  
I think about this and I cannot believe that people  
are banned from enjoying THC  
Through perpetuation of flawed ideology hemp  
prohibition has been enforced tyrannically  
This f\*\*king idiocy must be cast aside, hemp can be  
used to improve our lives!  
Let's assume unrestricted legality for medical  
research and potential industry  
There are so many possibilities for ways hemp could  
benefit our society!  
There is just no way that legality can be wrong!  
It's insane that the fight is taking so long  
I'm thirsty and we've reached the point in this song  
where it's time to kick back and smoke a bong...

Well now I've become euphoric,  
I feel really high and I adore it!  
How can it sanely be deemed a crime to lift one's  
spirits and expand the mind?!?  
We emphatically loathe the laws that came into  
being from ethical flaws  
Common sense must now dictate that hemp is legal  
in every state!  
Prohibition has now been repealed! There is hemp  
based fuel for automobiles  
There are hemp fiber clothes on every back and it's  
perfectly legal to carry a sack!  
There is no more need for deforestation and we've  
buried the debt of this now green nation  
Marijuana is Mother Nature's finest gift so rejoice in  
the earth and smoke a spliff!
