

Exit 13, Only Protest Gives A Hope Of Life

Your conscience overrides the fears of authoritarian repercussion,
You bring about ends that cannot be achieved through rational =
discussion!

So called "terrorist acts" utilized to win the fight for nature,
Is direct action the solution to problems that frustrate you?!?!?

PROTEST! RESIST! REASON! INSIST!

The time has come for total global mental realignment,
Misused technology has altered atmosphere, terrain, and climate.

Change is needed now, but course of action who'll define it???

Every mind needs a goal - a ladder - work until you climb it!!!

PROTEST! RESIST! REASON! INSIST!

The time has come for radical wilderness restoration!

Deep ecology must become the religion of future generations!!!

Economic gains are invalid reasons for nature's exploitation!

Thwart industrial domination and unmake civilization!!!
