

# Exit-13, Only Protest Gives a Hope of Life!

(Music: O'Donnell, Lyrics: Yurkiewicz)

Your conscience overrides the fears of authoritarian repercussion,  
You bring about ends that cannot be achieved through rational discussion!  
So called "terrorist acts" utilized to win the fight for nature,  
Is direct action the solution to problems that frustrate you?!?!

PROTEST! RESIST! REASON! INSIST!

The time has come for total global mental realignment  
Misused technology has altered atmosphere, terrain, and climate  
Change is needed now, but course of action... who'll define it?  
Every mind needs a goal - a ladder - work until you climb it!

PROTEST! RESIST! REASON! INSIST!

The time has come for radical wilderness restoration  
Deep ecology must become the religion of future generations  
Economic gains are invalid reasons for nature's exploitation  
Thwart industrial domination and unmake civilization!
