

# Exit 159, Mind Over You

and maybe, yeah someday  
I'll put a smile back on my face  
then I won't have to take it anymore  
but this time, I'll be fine  
I won't ever let it cross my mind  
and maybe find the nerve to stay  
and I'll beat this  
yeah I'll fight it  
so just shut up, be quiet  
so I can think this thing through  
mind over you  
what's the right way  
what's the wrong way  
what's the one way  
to keep me hanging on  
just one time  
find the nerve to stay  
and don't talk so, so backwards  
when I fall I'm gonna fall forwards  
then I won't have to fake it anymore  
mind over you
