

# Exit, Lost Cause

I heard that you've been  
Saying things about me  
You really shouldn't say  
I should have known  
Coming from you

So how come you're so  
Nice in front of me  
But when you walk away  
You keep on doing what you do

(bridge)

Sooner or later all the  
People you call friends  
Will know all the lies and smiles  
You bring with you  
Everywhere you go

(chorus)

I can see the rain  
But I don't feel the pain  
This isn't anything I've lost  
And I can feel the stab  
But I don't see the scar  
And I'm not thinking bout'  
The cost, of this lost cause

You know I'll never know  
The reason why  
I'll never understand  
This situation that we're in  
I don't think that you realize  
That I could put you  
Where you stand  
But that is not the way I am

(bridge 2)

I heard this little thing  
Called honesty goes  
A long, long way  
You're climbing a ladder  
Down to hell and you are  
On your way

(chorus 2x)
