

# Exit, Under Your Skin

I wanna see, something no one else can  
And I want to be, more than just your main man

And I want to see, more than what the eye can  
And I want to see, who you are within

(CHORUS)

I wanna get, I wanna get  
Under your skin  
I wanna know, I wanna know  
you within  
I wanna know, I wanna know  
I wanna know your ways  
I wanna hear, more than what you say  
And if I find I don't like what I've found  
I'm still gonna search around  
Under your skin

(END CHORUS)

I wanna find, something you have hidden  
And I wann search, places so forbidden

And I wanna know, how you feel inside  
And I wanna try, something never tried

(CHORUS)
