

# Experience Tnt, Free Again

I dont wanna be your lover  
just wanna be your friend  
I dont wanna find another  
just find my self again

no I cant tell me who I am, no  
I cant sell me any plan, really dont know where this road will end

I wanna be free again  
you know I wanna be, I wanna be free again  
you know I gotta be, I gotta be free

an' if I see you on the highway  
a long way from anywhere  
maybe you be going my way  
and may be far from there

no one can say now  
where we be,  
no one can say if  
we'll ever meet  
maybe this road will never end

I wanna be free again  
you know I gotta be, I gotta be free again  
you know I wanna be, I wanna be free now

sometimes we need a brand new revelation  
sometimes we have to go away  
some days we need a whole new conversation  
sometimes we have to fly

you know I wanna be, I wanna be free again  
you know I wanna be, I wanna be free again  
you know I wanna be, I wanna be free again  
you know I wanna be, I wanna be free again  
you know I wanna be, I wanna be free again  
you know I wanna be, you know I wanna be free again  
yes I do  
you know i wanna be, wanna be free again  
like the wind
