

Exploited, Affected By Them

It's sad to say that children
No longer scared of dead bodies
Pass corpses every day
No longer affected by them

No longer affected by them (3x)

No respect for human life
They've become insensitive
Children all alone
What's the reason why

No longer affected by them (3x)

Once they were best of friends
Now they're enemies
Drawn by the smell
Was the remains of children dying

No longer affected by them (3x)

It's sad to say that children
No longer scared of dead bodies
Pass corpses every day
No longer affected by them
